

VIGNAN UNIVERSITY:: VADLAMUDI

One-day workshop on

“Agile Development Methodologies”

Vignan university in collaboration with TCS organized one day workshop on “Agile Development Methodologies”. Resource person and guest of the day Dr. N. M. Bhatta from TCS, delivered theoretical aspects of Agile Methodologies in the morning session and hands on experience in the afternoon session. Dr. Bhatta elaborated the importance of agile methodologies, which is suitable for latest business models that suited for rapid changes in requirements.

Agile development methodologies have been designed to address the problem of delivering high quality software on time under constantly and rapidly changing requirements and business environment. Agile development processes are characterized by extensive coding practice, intensive communication between key stakeholders, small and flexible teams and fast iterative cycles. This paper presents an introduction to agile development and giving a brief introduction to the various agile methodologies, their key characteristics and features.

50 faculty members from departments of CSE, IT and MCA of Vignan University, Vignan's LARA Institute of science & Technology and Vignan's NIRULA Institute of Science & Technology have attended for this workshop.

Earlier in the morning, the workshop was inaugurated by Vice Chancellor Dr. V. Govardhana Rao, Registrar Dr.C.RangaRao, Dr.P.Krishna Prasad, Dr.Ande.Prasad, Prof.K.V.Krishna Kishore and Prof. A.Raghunath. The Workshop was coordinated by Mr. S.V.Rama Krishna, Asst Prof. of CSE
