

Vignan University Research Forum

The Forum aims at bringing the faculty, research scholars and the students of the university to come together by way of constant interaction in research activities.

Apart from discussing the individual research problems, the Forum will focus its attention to encourage inter-disciplinary research not only within Social-sciences, Science and technology, Engineering and Business Management but also across these disciplines. Participation and involvement in a healthy academic activity will help the University to scale new heights in teaching and research activities.

The Research Forum expects all the faculty members to take active part in the forum activities and inculcate the spirit of research and make it a way of life in the University.

Objectives:

1. Creating awareness and keep the University academic Community up to date on the on-going research in the University Campus.
2. Coordinating research activities and providing a forum for exchange of views.
3. To explore the possibility of inter-disciplinary research and encourage the young researchers in this direction.
4. Bringing out a bulletin for dissemination of useful information to researchers in various fields.
5. Discuss the methodological issues, interpretation of conceptual and analytical framework, findings of empirical studies, policy implications, etc. of the on-going and completed research programmes through regular meetings of faculty and research scholars.
6. Encouraging young scholars to gain knowledge of the perspectives and methodologies of their own and related disciplines through active participation.
7. To organize/help organize need based training programs that are of vital need for research activities.
8. To promote good interaction among the faculty of all disciplines in the university so that undergraduate and graduate projects also reflects the spirit of interdisciplinary research.

Lecture Programmes:

On every second Friday of the month, a lecture will be delivered by a faculty member/research scholar from one of the schools/departments of Vignan University. In addition to this, on every fourth Friday, external resource person (Academician/Researchers/Scientists of R & D Laboratories) will deliver talks on contemporary research. The Sravanthi Seminar shall be the venue for all the activities of the forum.

Publications:

Research articles by the academic community will be reviewed and published in the monthly Bulletin of Research Forum. The bulletin will also carry the minutes of the research forum meetings, details of the forthcoming events, reviews of the activities already held and are under the progress.
